Natural digestive enzymes help the lactic bacteria to grow 4 times as fast as normal, improving digestion and bringing relief.

Gandalf Raw Organic Chlorella Production

- Cultivated with FRESH WATER obtained more than 500 meters underground
- Is NOT grown in open ponds
- Grown in covered ponds. This method eliminates 100% of the acidity of rainwater and airborne contaminants.
- Better Taste, Smell and Color
- Broken Cell Membrane
The outer wall of the Chlorella limits the availability of nutrition. At Gandalf, we crack the cell wall of the chlorella to access minerals and vitamins giving the body easy access to the nutrition within.

Optimum Protection Packaging

Our pouches are made with superior quality materials and are composed of multiple layers including aluminum to offer protection from air and light.
